Department of Pathology Retreat
Saturday, December 3, 2016
21c Museum Hotel

9:00 AM- 9:20 AM  Arrival and Registration

9:00 AM - 9:45 AM  Continental Breakfast

10:00 AM -10:05 AM  Welcome and introductory remarks given by
Jiaoti Huang, MD ,Ph.D, Chair, Professor Department of Pathology

AM SCIENTIFIC SESSION
Moderator, Soman Abraham, PhD
Professor, Department of Pathology,
Director, Pathology Graduate Studies Program

10:10 AM- 10:35 AM  Nancy Andrews, MD, Ph.D, Vice Chancellor for Academic Affairs
and Dean, School of Medicine
“School of Medicine Strategic Plan”

10:40 AM- 11:05 AM  Jiaoti Huang, MD, Ph.D, Chair, Professor, Department of Pathology
“Morphologic spectrum of metastatic, heavily treated prostate cancer”

11:10 AM- 11:25 AM  Carter Suryadevara, Pathology PhD. candidate
“Host lymphopenia enhances the efficacy of tumor-specific T cells
delivered directly into the brain"

11:25 AM -11:35 AM  Short Break

11:35 AM -11:50 AM  Gustaaf de Ridder, MD, Ph.D, Co-Chief Resident, House Staff, Pathology
“Hyperoxia modulates tunneling nanotube behavior through p53
and stathmin-1”

11:55 AM- 12:20 PM  Peter Fecci, MD, PhD, Asst. Professor, Department of Neurosurgery
"Lost and Found" : Bone marrow T cell sequestration in the context of GBM"
Buffet Lunch, Main Gallery
12:30PM-1:30PM

PM SCIENTIFIC SESSION
Moderator, Thomas J. Cummings, MD
Professor, Department of Pathology,
Director, Pathology Residency Training Program

1:30 PM-01:55 PM  Herman Staats, Ph.D, Professor, Vice Chair for Research, Department of Pathology
“Vaccination by the nasal route: lessons learned from mice, rabbits and non-human primates”

2:00 PM- 02:25 PM  Shannon McCall, MD, Assoc. Professor, Department of Pathology
“Biobanking: From“Big Science” to Identifying Esophageal Gland Metaplasia in Cancer”

2:30 PM-02:55 PM  Darell Bigner, MD, Ph.D, Professor, Department of Pathology
“Immunotherapy is finally beginning to work on Brain Tumors”

3:00 PM- 03:15 PM  Kimberly Ingersoll, Co-Chief Resident, House Staff, Pathology
“Carcinoid Tumorlet in Lung Transplant Biopsies: A Case Series”

3:15 PM-03:25 PM  SHORT BREAK

3:25 PM- 03:40 PM  Hae Woong Choi, Research Scientist, Department of Pathology
"Basis for Shedding of bladder Epithelial cells During Infection"

3:45 PM- 04:10 PM  Rajesh Dash, MD, Professor, Vice Chair for IT, Department of Pathology
"The Intersection of Research and Clinical Informatics”

4:15 PM- 04:20 PM  Move upstairs to Gallery 3 (2nd floor)
Poster Session and Cocktail/Social

4:20 PM - 05:20 PM  Gallery 3 Cocktail hour with Hors d’Oeuvres featuring Pathology Signature Cocktail, (Name: Pathological Truth)
Gallery 4 Poster viewing

5:20 PM – 05:30 PM  Poster Contest Winners announced and prizes awarded
